**SWING INSTRUCTIONS AND SAFETY RULES!**

**SAFETY TIPS FOR SWINGS**

- On-stall supervision required. 
- Adult installation is required. Children should not use product until properly installed.
- Instruct children not to walk close to, in front of, behind, or between moving swings.
- Instruct children to sit in and never stand on swings.
- Instruct children not to pull the rope and not to loop them over the swing beam, since this may reduce the strength of the rope.
- Instruct children not to jump from swings that are in motion.
- Instruct children not to pull from swinging equipment that are not motion.
- Instruct children not to swing when the equipment is wet. 

**WARNING: STRANGULATION HAZARD!**

- Do not attach to a tree limb, make sure the tree is alive and healthy. Recommended diameter of tree limb is 10”. Before anyone uses the dreamcatcher, a stress/weight test should be performed.
- If worn or damaged parts are found, contact b4Adventure for replacement parts – DO NOT sell, give away or dispose in landfill.
- If there are damages to the links against the swing rope, do not attach to your structure.
- If there are damages to the links against the swing rope, do not attach to your structure.
- If there are damages to the links against the swing rope, do not attach to your structure.

**PRODUCT COMPLIES WITH ALL CPC & ASTM F1148 HOME PLAYGROUND EQUIPMENT STANDARDS**

**CHOOSING THE SITE**

- Do not install home playground equipment over concrete, asphalt, packed earth, gravel, or any other hard surface. If installed on a poured sidewalk or pavement, asphalt or concrete, the swing frame should be raised on a 4"x4" wood support structure. Swings should have a minimum of 8 inches between them. (ASTM F-1148-09)
- The “fall zone” in front and back of the swing should extend out a minimum distance of twice the height of the swing as measured from the ground to the top of the swing support structure. Swings should have a minimum of 8 inches between them. (ASTM F-1148-09)
- Surfaces material should be a minimum of 8 inches above the protective surfacing material. (ASTM F-1148-09)

**ATTACHING THE DREAMCATCHER SWING**

- Use the carabiners included in your package to attach the rope to your structure. 
- Instruct children to sit in and never stand on swings.
- Instruct children not to twist the ropes and not to loop them over the swing beam, since this may reduce the strength of the rope.
- Instruct children not to jump from swings that are in motion.
- Instruct children not to swing when the equipment is wet.
