crocs fit guide

[see size chart](#)

Choose the right fit for your foot. At Crocs.com, you'll find roomy, relaxed and standard fit styles. So, whether you're a narrow size or wide, you'll find the perfect fit for you.

Our roomiest fit, just like our original style clog. Some models include a heel-hugging back strap for more stability.

- Our widest fit. Your feet often won't meet the sides.
- Generous in length. Your toes shouldn't touch the front.
- Roomy across the top for lots of breathability.

Expect a little room, but a more secure fit than our roomy styles. Some models include laces or straps, but all should feel stable on your foot as you walk.

- Slight amount of room around the perimeter of foot. The sides of your feet may occasionally meet the shoe walls.
- A secure, yet relaxed fit across the top of your foot.
- Wiggle room at the front of the shoe – your toes shouldn't touch the front.

Standard fits offer a more snug (but not tight) fit than our roomy or relaxed styles. They should conform to fit your foot securely with minimal or no slipping as you walk.

- Your heel should rest securely and the shoe shouldn't ride up and down.
- Sides, top and arch area of the shoe should comfortably hug your feet.
- Wiggle room at the front of the shoe – your toes shouldn't touch the front.

find your size

To help find your shoe size, use a ruler and our size charts below. Measuring with a ruler will provide an approximate measure of your true shoe size.
